NARRATIVE  
On Thursday, August the 19th, 1982, Detective R.F. Massey received a call to 1088 Magnolia Street in reference to skeletal remains found in the overgrown back yard at that location. Upon arrival, Detective Massey met with Captain Hernandez, who stated that the resident at 1088 Magnolia Street had found what appeared to be human skeletal remains in the back yard. At that time Detective Massey observed what appeared to be the skeletal remains of a human female lying in an overgrown area of bushes behind the house at 1088 Magnolia Street, lying approximately 15 feet from the remains was a white dress with red and blue horizontal pin stripes and lying across the upper portion of the remains was a thin piece of material which appeared to be a belt which matched the dress. At the scene at that time were:

ORIGINAL REPORT SUPPLEMENTAL REPORTPAGE 2 OF 2

Captain Hernandez, Lt. Arrington, Sergeant Janice Gordon, Captain Gary Adams, Officer Keith Collins, and Officer Coley.

Detective Massey interviewed Mildred Hockman of 1088 Magnolia Street, 745-3206, who stated that she had gone into the back yard to clean out a garden area and had observed the skeleton lying in the bushes. Mrs. Hockman stated that she went inside and told her husband, who also observed the skeleton and then called the police. Mrs. Hockman stated that she and her husband had bought the house only approximately two weeks ago and had just moved in Monday, August the 16th, 1982. She stated that earlier in the week she and her husband noticed an odor in the back yard, but thought that it was a dog and did not investigate any further.

Mrs. Hockman stated that the previous owner of the house was Peter Erickson, who is employed with Merrill-Lynch and had recently moved to Texas. Detectives Collins and Dudley located a missing person report which indicated a black female, Fredonia Smith, had been reported missing in the vicinity of 873 Washington Avenue on July the 10th, 1982. Interviews conducted by Detectives Collins and Dudley provided Detectives with a description of clothing and age, which generally matched the clothing found with the skeletal remains and the approximate age was given by Crime Lab Personnel.

Detective Massey and Captain Hernandez obtained X-Rays from the Medical Center of Central Georgia, which had previously been made of Fredonia Smith and also dental X-Rays from Dr. Walton, made in 1972. These X-Rays were turned over to Dr. Bryan Dawson, along with the remains to be transported to the Georgia State Crime Lab in Atlanta, Georgia. The skeletal remains have tentatively been identified as Fredonia Smith, through items found at the scene and a preliminary comparison of X-Rays and the skeletal remains.

The investigation is continuing.
